PX ECO-LITE UFE 0W-20

Product Description

PX Eco-Lite UFE 0W-20 is a fully synthetic engine oil that is specifically designed to increase fuel efficiency, reduce engine emissions, promotes long engine life, and minimizes the number of oil changes. It meets the highest API SN Plus and ILSAC GF-5 + classifications and exceeds the most demanding requirements needed by today's modern engines.

PX Eco-Lite UFE 0W-20 is formulated to prevent oxidation, keep engines clean and minimize wear in today's engines, which run hotter because of cramped engine bays, smaller sumps, turbo-charging, super-charging, variable timing, and other engineering advances. PX Eco-Lite UFE 0W-20 is NOT recommended for diesel engines.

Applications/ Benefits

- Excellent low temperature viscosity promotes quick start-up full lubrication
- Reduced Low Speed Pre Ignition (LSPI) and Chain Wear
- Emission system durability & increased fuel economy
- Formulated for use with unleaded or E85 fuel
- Turbocharger/ supercharger protection
- Piston cleanliness and engine sludge protection
- Wear protection and extended service life

Typical Characteristics

Test Description	Result
SAE Viscosity Grade	0W-20
Specific Gravity @ 15 ° C	0.849
@ 40C (cSt)	45
@ 100 0 C (cSt)	8.5
Viscosity Index	169
TBN (mgKOH/g)	7.74

Specifications

- API: SN Plus
- Chrysler: MS-6395
- JASO: MA
- ILSAC: GF5+
- Ford: WSS-M2C947-A
